

2009 New Classes Multiday

Shaker Oval Boxes

Come learn how to make traditional Shaker boxes using hand tools. By the end of the week you'll have your very own Shaker oval box to take home. Students who learn quickly will be able to finish more than one. 5 Sessions \$575 (Includes Materials)

Toboggans

This fun class arrives just in time for toboggan season. The distinctive curved front of these super fast toboggans is made by steam bending solid slats of red oak. You will take part in the steam bending process and leave with your own toboggan, which can make a great gift. 5 Sessions \$480 (Includes Materials)

Building a Veneer Box

Learn how to apply veneer and inlay and finish a small box. A small project full of different techniques. 3 Sessions \$365

End Table Class

Explore proper table construction methods, while producing this little beauty. You will learn techniques and use of planers, drill press, joiners, routers, and the band saw. 5Sessions \$575

Woodworking Fundamentals

Open to all. This five-day course provides an introduction into fundamental furniture making techniques. Learn handtool and machine safety, maintenance and usage, while creating a small table. Other topics will include lumber selection and preparation, the properties of wood, joinery and finishing. In this class the particular project is not the main focus, as much as, the techniques involved in making the piece. The project will be selected for its construction challenges. 5 Sessions \$575.

Fundamentals of Woodworking 101:

Building a nailed together serving tray. You will learn techniques and use of planers, drill press, joiners, routers, and the band saw. 3 Sessions \$360
